Skills

MySQL | HTML | CSS | Git | Rest API | JavaScript | ExpressJs | React | MongoDB | Tailwind

Work Experience

AVTECHFIN

Jan'24 -April'24

- Developed admin panel. Using MERN stack(MongoDB, Express.js, React, Node.js).
- Implemented user authentication and authorization.
- Used Playwright and Selenium libraries to scrape data from various sources. Automated data extraction process to enhance efficiency.
- Designed and developed customer forms for the company website. Ensured forms were user friendly and responsive.
- Worked closely with the development team to ensure seamless integration of new features.
- Participated in regular meetings and provided updates on project progress.

FREELANCE PROJECT: StreetWorldz Foundation Website ([street-worldz](#))

Sep'24-Jan'25

- **Description:** Developed a full-stack website for an NGO dedicated to animal rescue and donation campaigns.
- **Frontend:** Built using React.js, implemented features with React Context API, and utilized useState and useEffect hooks for state management and API calls.
- **Backend:** Created a RESTful API using Express.js and MongoDB for data storage, ensuring seamless integration with the frontend.
- **Payment Gateway:** Integrated Razorpay for secure and user-friendly donation transactions, supporting targeted campaigns.
- **Deployment:** Hosted the backend on Render and the frontend on Netlify; final deployment planned on GoDaddy with a custom domain.

Key Features:

- Campaign-specific donation tracking.
- Persistent progress bar for donations using backend state.
- Fully responsive design optimized for user experience

Projects

Netflix Clone (M E R N)

<https://ankitshah-netflix-clone.onrender.com>

- Developed a Netflix clone using the MERN stack (MongoDB, Express, React, Node.js) to provide a seamless streaming experience.
- Integrated TMDB API to fetch and display movie and TV show titles, posters, descriptions, and trailers.
- Implemented a search feature to where user can search for movies, TV shows, and actors, enhancing user experience and navigation.
- Built a secure authentication system with login and signup functionality using JWT and bcrypt for user management.
- Designed a responsive and intuitive UI for browsing, searching, and viewing trailers, ensuring a user-friendly interface.
- Utilized **Zustand** for lightweight and easy-to-manage state management, optimizing the performance of React components.

Ankit Shah – My Personal Portfolio

<https://ankitshah18.netlify.app>

- Build a personal portfolio website which is **100%** responsive where I can describe **all about my achievements**.

Education

Indira Gandhi National Open University (IGNOU), India

2019-2023

- Bachelor Of Computer Applications| CGPA: **7/10**

Kendriya Vidyalaya, India

2018-2019

- CBSE (Class XII), Aggregate: **80%**

Kendriya Vidyalaya, India

2016 - 2017

CBSE (Class X), CGPA: **8/10**

Licenses & Certifications

- Coding Blocks C++ Masters Course Launchpad
- The Complete 2023 Web Development Bootcamp(Udemy)
